

28 January 2013

Dear Elaine

Elaine Hosiassohn has partnered with Giant Leap for the past 9 years as our Feng Shui Master. She is our Guru. We don't do anything in our office space without asking her for her professional input. Since we have used her service our turn over has increased as well as the productivity in our office environment. Our staff all work at their best and feel privileged to have each had their own individual Feng Shui done. She doesn't introduce ridiculous superstitious objects but works with people's direction and the right flow of energy through space.

We bring her services in wherever we can with the clients we work with.

It is an ongoing process and partnership. We re-evaluate our Feng Shui every Chinese New Year.

Elaine we pride ourselves on having you as a partner and feel privileged to introduce you to any of our clients.

Kind Regards,

Linda Trim
