Feng Shui Dynamics

Dear Elaine,

Just a few words to add to you profile and to say thank you for all your hard work with us.

It is with great pleasure and respect that we would like to recommend Elaine Hosiassohn to any individual or company.

"Elaine is our one and only Feng Shui Master, our energy lady as we love to call her. In 2009 Elaine became part of our "home and working family" and we've never looked back since. We love the constant flow of positive energy and all the good that goes with it. Natural elements that enhances our everyday life as well as our work opportunities. Our company has shown a positive growth every year. Elaine helps us to make our surroundings work for us and also to make the most of it.

When a customer positively comments on the great feel of energy in your office, without know that we welcome the Feng Shui principles, and then you know it works just great! It's not in your face but it's there and constantly working the energy of the universe in your favour".

Our staff and customers enjoy the great harmony Feng Shui brings to our environment. After all, Elaine understands us.

We are proud to call you our friend for a long time to come.

Kind regards,

Hannelie Steenkamp
